

# MAOR IDI

## FULL STACK DEVELOPER

### WORK EXPERIENCE

#### **Ghost Squawk (Part Time), Miami Florida, Project Manager & Programmer (06/2021 - 03/2022)**

In the company I founded and developed the entire software field; Linux server maintenance, database management, website development and side scripts in Python. I accompanied the company from its establishment to its operation and managed 2 english speaking employees online.

#### **Kovach Technologies (Part Time), Miami Florida, Project Manager & Programmer (07/2022 - 12/2022)**

In the company I founded and developed the entire software field; Linux server maintenance, database management, website development and side scripts in Python. I accompanied the company from its establishment to its operation with a partner of mine.

#### **Busy with AI (Freelance), Netherlands, Python Developer (12/2023 - 02/2024)**

In the company I developed scripts in Python for taking information from the customers and building leads for the company. Additionally, I built a bot for their Discord community for security purposes and managed their Linux server on Digital Ocean.

### MILITARY SERVICE

#### **11/2021 – 07/2024:**

As part of my military service, I served at the base of the Kirya in an air force pit in a classified role. I took 2 courses: "Ground knot" and "beam of light". During my military service, I developed 2 streamlining proposals in a closed network that contributed to the army in the operational aspect, both in shortening the time of solving problems in the system automatically without the need for a technician, and in programming a system that includes a chat bot for understanding and solving the error the customer is having, a page for monitoring physical and programming problems in real time, An administrator page that can manage users of the system when needed, and provide statistics for efficiency and service improvement. Which saved the military a lot of money and critical operational time.

Following the efficiency proposals, I was awarded a certificate of military excellence and several certificates of appreciation from the unit's commanders.
