

MAOR IDI

FULL STACK DEVELOPER

WORK EXPERIENCE

Ghost Squawk (Part Time), Miami Florida,
Project Manager & Programmer

Managed all development-related tasks, maintained Linux server, data repository management, website development, and Python scripting. I also supervised two employees, one from India and one from Israel, during the same period.

Kovach Technologies (Part Time), Miami Florida,
Project Manager & Programmer

I was entrusted by one of the owners, to take charge of managing the entire system. Overseeing the project from inception to completion, I handled all aspects of programming and even played a key role in recruiting a partner to work alongside me, ensuring a seamless and successful project execution.

Busy with AI (Freelance), Netherlands,
Python Developer

Developed Python scripts for data extraction and lead generation. Created a Discord bot for security purposes and managed their Linux server on Digital Ocean.
